Note: Rev B (and newer) uses LED display type BL−S230B−13−UHR−12.
These displays have a second decimal point “DP top,”
connected to pin 20, rather than NC on pin 20.

RP1 and RP2: resistor packs.
Populate only for WHITE version

DO NOT POPULATE US, RP5, P6.

For WHITE LED Display:
DO NOT POPULATE: RP3, RP4
